LOGNOTE -- Operations Group, 26 September 1986

TREASURY DEPARTMENT ACKNOWLEDGES WSS UPGRADE PLAN --  
I am telephoning Wire Service subscribers who have not yet responded to C/Ops 25 July letter advising of the planned circuit upgrade in 1987.

STAT

This morning, I contacted Mr Steve Haselton, Department of the Treasury, 566-8641. Mr Haselton said he had received the C/Ops 25 July letter and Treasury intended to upgrade its circuit and equipment to accommodate the increased baud rate. Mr Haselton said that he did not intend to send a formal written acknowledgement and asked that the telephone conversion perform that service. Mr Haselton said that he was the appropriate point-of-contact for further questions or information concerning this matter.
